

What's in the box?

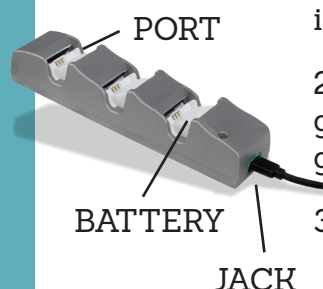

Kanega Watch, Charger, Power Cable, Four Batteries

Step
1

View the Kanega Watch how-to videos and download the User Guide at www.unaliwear.com/support

Step
2

Charge your Kanega batteries before inserting on the watch.

1. Connect the power cable to one end of the charger and plug into wall. Verify green light on charger jack is on.

2. Insert two (2) batteries into ports by placing the top end with the gold prongs first, and then pressing the bottom of the battery gently downwards until you hear or feel it attach into place.

3. Battery light fades red when batteries are charging and turns green

Step
3

Install fully-charged Kanega batteries on the watch.

1. Insert the top end of the battery at a 45-degree angle so that the gold prongs compress and slide into the three springs at the top of the battery compartment, then press the bottom of the battery gently downward until you hear or feel it attach into place.

2. Place a charged battery on both sides of the watchband and put the remaining two batteries on the charger so they are ready when needed.

3. After batteries are installed for the first time, the display changes to 'Kanega Watch' with moving dots. If you do not see this within 5 seconds, press the crown button once.

4. The display changes to 'Press crown to begin' when the watch is ready to start the short interactive voice tutorial.

Step
4

Experience the interactive voice tutorial through the Kanega Watch speaker.

1. One short press of the crown button starts the 5 minute voice tutorial. There is one (1) minute to begin before the watch goes to sleep.

2. Please wear your Kanega Watch during the voice tutorial.
