Extending independence with dignity

*"The Kanega Watch is my 'go-with-me', ever present companion. I really didn't want to wear a pendant, so this is the perfect option"*

Paul M.

(Better Business Bureau Independent 5-Star Review)

# Meet The Kanega Watch

Traditional medical alert devices are worn grudgingly, if at all. People want to feel protected, particularly from unexpected falls, but clunky and stigmatizing pendants are a huge turn off.

## Modern and Smart-Looking - Offering Discreet Protection

- The first all-in-one medical alert smart watch with built-in auto fall detection.
- No pendant (or cellphone or base station) required. The watch is your entire medical alert system.
- Press or Speak to reach US-based emergency response operators 24/7/365.
- Round-The-Clock Protection, even at night and in the shower; never needs to be taken off to charge and fully waterproof.

## Did You Know?

92% of Kanega Watch wearers wear their watch 24/7 while most other medical alert devices are worn less than 50% of the time.

*"I think it is great to wear all the time and gives me security day and night."*

Nancy P.

(Better Business Bureau Independent 5-Star Review)

# The Kanega Watch vs. other mobile medical alert alternatives:

	Kanega Watch	Other Mobile Medical Alert Brands	Apple Watch SE
Can be worn 24/7, even while charging	✓	✗	✗
Fall Detection a standard feature	✓	✗	✓
Fall Detection occurs in a wrist-only device	✓	✗	✓
False fall detection alerts reduced over time	✓	✗	✗
Engage with device via speech and/or button	✓	✗	✗
All-in-one device (no separate phone, pendant, or base unit)	✓	✗	✗
Activate emergency response via help button OR voice	✓	✗	✗
Waterproof	✓	Not Always	✗
Non-emergency assistance available	✓	✓	✗
Medication reminders	✓	Rarely	✗
Cost for device*	\$149	Can be up to \$299	\$329+
Cost for monthly monitoring service with fall detection*	\$59.95	Can be \$50+	NA
Cell service/data plans included in monthly service	✓	Not Always	✗
No additional fees or taxes	✓	Not Always	✗

\*Costs for Kanega Watch and competitive mobile medical alert brands are based on annual plans for all offerings

## Did You Know?

Other mobile medical alert devices use only a cellular connection for emergency response. The Kanega Watch uses both WiFi and Cellular. If you have limited or spotty cell service in your home, a clear WiFi connection can be critical.

*"Kanega uses both wifi and cell, so I have dependable coverage nearly anywhere."*

Garnet P.

# The Kanega Watch in an Emergency

## Press the Crown Button or Speak

Immediately connects to a US-based response operator 24/7/365 who knows your name, address, location, emergency contacts and other key info you have provided to UnaliWear.

## Auto Fall Detection

Alerts the operator even when you can't press or speak, sending immediate emergency services.

## Emergency Response

Your response operator is trained to quickly determine and engage the appropriate support needed – ambulance, fire, police or simply contacting a family member or neighbor. Your stand-by assistance is always there.

## UnaliWear's AutoFall Detection

- Comes standard in every watch at no additional cost/fee
- Uniquely wrist-based – no neck pendant required
- Patented smart technology learns your natural movements over time, reducing false fall alerts.

*My 93 year old father wandered into the garage at 2:30 am. one night. The lights went out and he fell. Thank goodness he was wearing his Kanega Watch. We immediately received a call that he had fallen.*

Richard S.

(Better Business Bureau Independent 5-Star Review)

*"If fall detection is your number-one priority, the Kanega Watch's round-the-clock monitoring and battery system make it our preferred choice."*
